

## Z18 upate watch UI resouce tutorial

If you turn on smart watch show as below screen, so need update UI resource.

1. First you need download the UI resource files. The UI resource file URL:  
<http://www.app2open.com/download/res/Z18/res.zip>

1. Click the OK area at the bottom of the smartwatch, and the screen shows as follows:

2. Make sure Mass Storage is selected.
3. Find the cable to connect the smartwatch to the computer's USB port, and the screen will appear as follows:

4. At this point, the computer will recognize a disk, such as F disk.
5. Unpack the downloaded UI resource file, the file structure for the xxx/res / \*. \*, copy res / \*. \* to F: / res / \*. \*, to ensure the correct path. Also, place music files in music/ folder. Case insensitive.
6. Disconnect the cable and reboot the smartwatch.
7. At this point, The UI resources are updated completely. enjoy you time.
